# Could you save 5 shots per round?

## A simple test to benchmark your putting setup

The jury is out on this one. The evidence shows that, if one is more important than the other, then it's marginal. We think this myth has come about as the industry tries to educate golfers that weight is very important. And it is.

If the angle of your putter face is just 2° out at impact then, even from just 6 feet you're going to miss.

If you miss most putts in the 6 – 12 foot range then the chances are you have a face angle challenge. For most, that problem starts at the address position. Benchmark your skill level:

## Get a check-up

Improving your ability to square the putter face at impact will take up to 5 shots off your scorecard. There are some simple keys to that improvement. So come and see us.

all golfers**

The Srixon Z-Series Irons bring forging to even more golfers. You can have distance and the perfect look, sound, and feel. You can work the ball and have the perfect look, sound, and feel. Or, you can have both.

## Enjoy the journey

Golf is the greatest game on the planet. Great playing experiences. Great social experiences. Amazing friendships. The healthy outdoors. Add a "journey" and the game

becomes even better.

We want you to get more out of your golf and to play better golf. We all know better golf is more fun. But the journey that takes you to a better game should also be fun.

*Fun starts right at the beginning of your journey.*

*Nine holes with two friends and one of our Professionals, playing a fun format, gives your Professional the chance to offer some thoughts on what that journey might look like.*

## Start a journey

Take the first step on your own journey. Speak to us about our Play Nine Together or Personal Assessment and we'll show you a pathway to better.
