

## From the Club

Did you know that we have a campus at Zwartkop which allows students to study full time towards their PGA Diploma?

The Golf Management Campus prepares students for a career in golf, whether it be to become a Tour Professional, a Club Professional, a Club Manager or a Golf Course Superintendent.

Last year **Ceanon van Aardt** joined us to do the Sports Turf Maintenance course. He was a beginner golfer and in just over 10 months he managed to get down to a 4 handicap. With the assistance of our Head Teaching professional **Elsabe Hefer**, he was able to show us what determination and hard work can do!

---

We have a host of extremely experienced lecturers and coaches involved in the Golf Management Campus, from the gurus in the golf business, including: **Dale Hayes & Dennis Bryson** – PGA Master Professionals; **Elzabe Hofer** – PGA Top 25 Teacher &

**Dennis Bruyns** - PGA Master Professionals, **Elsabe Herer** - PGA Top 25 Teacher & Fellow PGA Member; **Theo Bezuidenhout Consulting** - Sports Psychologists & **Dwayne Coetzee** - Golf Equipment Technology Specialist.

You can contact Joanita Verster for more information or a Tour of the facilities on **(012) 654-1144** / [mentor@golfmanagementcampus.co.za](mailto:mentor@golfmanagementcampus.co.za) or visit [www.golfmanagementcsampus.co.za](http://www.golfmanagementcsampus.co.za).

# New irons now?

*It's not just*

## **TECHNOLOGY THAT HELPS**

If you're over 50, while logic says age must be slowing you down, technology is changing the game for you. You can hit higher and longer iron shots with less requirement for the strength of youth. A note of caution: you do want accuracy.

*Many golfers live with relatively poor accuracy with anything over a #9 iron. They believe that it's their own swing that lets them down. But too often, it's an incorrect lie angle that causes the face angle to twist when the toe hits the turf first. This tilts the spin axis of the golf ball. The ball goes right*

spin axis of the golf ball. The ball goes right.

### ***YOU'VE GOT LESS THAN AN INCH TO GET THIS RIGHT***

During less than an inch of the contact zone, the sole needs to be square to the turf. A fitted iron makes that possible. And the result is a much better and much more accurate ball strike.

### **Could you be getting better?**

Don't settle. Golf has so much more to offer each of you. Technology that makes you longer, with a fitting that makes you straighter, means your best golf is ahead of you.

# Act on your feelings

Has 'hope'  
**BEEN LOST**

*We all stand over 145-metre approach shots with hope, but that hope can be quickly traded for acceptance if shot after shot is far from perfect. And acceptance is a threat to the flame of our desire.*

If we want to sustain hope, if we want our flame of desire to burn bright, then we need to

take action. We must take action.

### **FAN THE FLAME AND COMMIT TO ACTION**

Think about what it would take for you to experience the joy of perfection from 145-metres more frequently. What would it require from your game? Playing more regularly? Some practice? Fitted irons? Improved technique?

### **Fan the flame, take the best action**

The best starting point is an assessment. We can match your desire with a plan of

action.
