

We knew you could do it Justin

Congratulations to **Justin Godfrey** who is now Level 1 Titleist Performance Institute (TPI) certified.

TPI is an exciting addition to the offerings at Zwartkop, as it enables the Professional to analyze your body shape, size, age, fitness level, in relation to the golf swing. The professional will then provide you with exercises or tips to help you get the best performance from your body.

It's suitable for any level of golfer – from the social player to the more competitive. It is guaranteed to get you working optimally and help you avoid injury.

The TPI philosophy of the swing states:

"We don't believe there is one way to swing a golf club. We believe there are an infinite number of ways to swing a golf club. But, we do believe there is one efficient way for all golfers to swing a club, and it is based on what they

can physically do."

Contact Justin on **082-925-0236** for a quick and easy TPI assessment. This is the perfect opportunity to find out what could be causing any weaknesses in your game, and what you can do to improve, with a combination of TPI and golf exercises.

Your scoring zone

Where the magic happens

Between 50 and 60% of your shots are from 100 metres in. The secret to playing better golf and having more fun is here.

But well over 80% of golfers are playing with scoring clubs that don't improve their short game. They're playing blades instead of cavity backs. They've got the wrong lofts. The wrong bounce and grind. They're making scoring more difficult than it should be.

“

Many golfers avoid getting a fitting because they think they aren't good enough. This is a massive myth. In fact, it's the less experienced and skilled golfers who stand to benefit most from a fitting!

Master this range

One of the easiest ways to improve in your scoring zone is to get fitted with the right wedges. We want this to become one of the most enjoyable parts of your game.
