Star of the Week

In last Thursday's 21 Club game, **Christopher Anderson** did something that is a record at Zwartkop. He made an albatross 2 on the 9th hole and followed that up with a chip in for eagle at the 10th. He was 5-under par gross for these two holes!

Over the four Par 5s he scored 16 points but unfortunately the Par 3s and 4s weren't as friendly. He only scored 18 points on the other 14 holes.

Congratulations Christopher, you are the **Zwartkop Star of the Week!**

The game of a lifetime

Get them started while it's easy

Golf is a skill that can be learned throughout life, but it comes especially easily to children. Getting your child into the game early means they pick it up quicker, and benefit from it for longer. Not to mention, it gives you more time to enjoy a common pastime with your child.

More than a skill

Once the skill is acquired, golf is a game for life. But skills aside, golf also brings friendship, belonging, fun and positive social experiences.

When coaching children between 6 and 9 years old, our focus is on fun and physical literacy. In this age group, children should be taking part in a wide variety of physical activities.

Get your children into golf

If you have a child or grandchild, let's get them into golf while it's easier to learn and get them started on the journey of a lifetime.

**The driver used by a champion
to make history**

Hideki Matsuyama became the first male Japanese golfer to win a major at this year's Masters. It was also his first ever major title.

Hideki used the Srixon ZX5 to make history.
What could the ZX5 do for your game?

Let's find out

Ever wondered
how good could you be?

If you're shooting scores in the high 80s or early 90s, then you're already showing the athletic ability to play this game well. The question now is how quickly and easily can you go lower.

Shooting low 80s is a lot of fun

We're looking for ladies who are interested in taking their game to the next level. We want you to be shooting low 80s most times out. Interested? You don't need to read more.

We'll start with an assessment of each golfer to identify the personal opportunities, but our experience tells us that the improvement areas will lead to:

Straighter, longer tee shots with an extra 10 metres or more. Maximising the potential with better swing timing and the right launch.

More consistent ability with fairways and hybrids to reduce the challenge of length, while opening up birdie opportunities.

Iron approach shots with extra height and greater stopping power, turning the potential of good tee shots into real birdie opportunities.

From inside 40 metres, the ability to get the ball consistently within one-putt range using a range of short-game shots. Stride onto the green knowing you're going to save par.

If that's a golf experience that appeals to you

Start the journey to hitting even better golf
