Get your golf and body
in synch

Ask Justin Godfrey how he can help you get the most out of your golf.

He is Level 1 Titleist Performance Institute (TPI) certified, and is able to improve your golf through a combination of TPI and golf exercises, especially if there is an underlying weakness in your body which is affecting your golf swing.

Stretch for a better game

Stretch it out

Do you have pain in your neck and shoulders? Having the incorrect posture when you play golf could cause this discomfort. If you work in front of a computer or sit all day, it's even more likely.

You need flexibility in your upper back and chest for good golf posture and rotation when you swing. Stretching your chest, shoulders and neck will improve your daily movement and your game.

[Tell me more](#)

Flexibility is everything

Knowing where, how and what to stretch will change your game. By analysing your swing, we can identify your weak areas and get you started on a journey to your best golf yet.

Launch your long game

Whether you're playing from the fairway or the rough, the new Cleveland Launcher XL HALO Hybrid has unique technology to help you keep the face straight through impact.

Break 100

Break it down

You're 150 metres out for your fourth shot on a par 5: Do you pull out your hybrid and go for the green? Or, do you take a comfortable #7 to within 40 metres and pitch it onto the green? If you're trying to break 100, the latter approach is the one to go with.

Play bitesize golf

Sticking with our par 5 example; instead of constricting yourself to what the course dictates (a drive, wood and iron), you could go with driver, hybrid, two irons and a wedge. You'd be on the green with a bogey putt. A two-putt from there to finish with double bogey still puts you on track to break 100. Remember, 9 bogeys and 9 double bogeys gets you to 99.

Break it down to break 100

The difference between 100 and 99 is only one shot, but carding that double-figure final score for the first time is an exciting and significant moment. Start your journey out of the triple-figures and into the 90s.
