## Stars of the week

Congrats to William Skinner who was Awarded the 2021 Gauteng North Men's Senior Player of the Year! We are proud of you William.

Joseph Phiri, our Head Professional, was featured in last month's Compleat Golfer magazine. Joseph is on the Board of the PGA of SA and we appreciate his immense and experienced contribution to Zwartkop.

You can read the article by clicking the button below.

A hole-in-one for your health

## The gift that keeps on giving

Every time you hit a golf ball, you visualise the trajectory, while focusing on your form, aim and accuracy. This takes co-ordination, balance and patience. It goes beyond your physical strength and taps into your ability to stay calm and focused. Here's what else golf can improve for you:

- *Brain power*
- *Patience*
- *Self-esteem*
- *Concentration*
- *Cognitive function*

[Get started](#)

*Hand-eye co-ordination is not only required for golf, it's needed for striking accuracy. It'll help you adjust when needed and help identify swing deviations. As you age, your co-ordination can deteriorate. Not only will this affect your game, but it'll also affect your daily chores. Golf is a great way to practise and improve your co-ordination.*

## Gain more than golf

What are you waiting for? Reap the benefits golf has to offer with us.

Lag putting

## Defeatist or realist?

The data shows us that from 25 feet, your chances of making a putt are fairly remote, but the chances of the regular golfer 3-putting are starting to increase.

*If you struggle with too many 3-putts, then maybe it's best to start to see a circle 6 feet across, with the hole in the middle.*

*Now you're challenging yourself to have the ball finish inside that circle. It's much less intimidating. But get some time on the practice green first.*

## | Want to remove 3-putts?

Give us a call. We'd like to know why you think you're 3-putting and where you think the problem might lie. Then we'd like to take a look without the on-course pressure.
