Stars of the week

Our Golf Management Campus students got a nice surprise after they completed the Match last week.

Joseph Phiri, our head professional, had organised for each of them to be given a ShotScope V3 GPS watch. This is a state of the art GPS watch with automatic performance tracking. In addition to the usual functions, such as distances and hazard visibility, this has over 100 stats to help improve your game. We look forward to a massive improvement in their scores in the near future.

We have these watches and the ShotScope Range Finder in stock in the golf shop – take a look below for more information.

Junior Order of Merit

Give them memories, give them golf

Get your kids involved in the Saturday *Order of Merit*.

Instead of watching your kids spend their Saturday afternoon glued to a screen, you could be watching them playing golf, outdoors, with friends and under supervision. Don't let them miss out on such memorable experiences. Help them develop their golf and social skills in a safe environment.

Contact Curtley to book your child's spot on 071 809 3754.

Club selection made easy

We have Shot Scope Range finders & V3 GPS Watches in stock!

Srixon's Double Dozen Offer

For a limited time only, you can get a double dozen pack (24-balls) of Z-STAR balls for R999.

The advertisement features a green background with a golfer in mid-swing. In the top left corner is the Srixon logo with the tagline "DEDICATED TO IMPROVING YOUR GAME". The text "MAJOR DEAL" is prominently displayed in yellow. Below it are two boxes of Srixon golf balls: a black box for "Z-STAR" and a white box for "Z-STAR XV". A circular badge on the right side of the white box states "FOR ONLY R999* PER DOUBLE DOZEN" with a smaller note below it: "*RECOMMENDED RETAIL PRICE". At the bottom, the text "LIMITED EDITION Z-STAR SERIES DOUBLE DOZEN PACK" is written in green and yellow.

Get your double dozen today

This is a bargain too good to be true! If you're interested in taking advantage of this offer, please let us know below.

Tricky lies

Escape with your first try

Playing from bunkers and heavy rough is tough enough as it is. But winter adds water and mush to the mix, and without a gameplan it can be tough to escape.

Your main priority in both cases is to get out and into safety in one shot. In both cases you need to have the correct technique, because the room for error is so much less.

Need some assistance? We're here to help.

See winter as an opportunity

Taking on the unique challenges of winter golf offers and opportunity for achievement and fun. Escaping difficult lies while every one else toils just adds to the enjoyment.

It's all connected

Golfers are particularly prone to aches and pains. But looking after and conditioning your muscles is the perfect way to avoid time off the course.

Alleviate muscle immobility and knots to avoid pulls and tears with myofascial release exercises.

Self-myofascial release techniques (SMRT) treat your muscle aches by relaxing your contracted muscles and improving blood and lymphatic circulation. All you need is a foam roller. According to the British Journal of Sports Medicine, with the correct strength and conditioning 8-week plan, you can add up to 24% to your clubhead speed. SMRT techniques should be included in this plan.

Understand your tissue

With the right SMRT exercises and a foam roller, you can reduce your risk of injury and keep your muscles flexible, stable and strong. Let's check your progress with an assessment before and after 8 weeks of consistent strength training and SMRT techniques to see if you can get your clubhead speed up by over 24%!

If you engage in these exercises, you agree that you do so at your own risk and assume all risk of injury to yourself.
