## From the club

The Matchplay Championship takes place next weekend

*2nd & 3rd July*

The Top 16 players in the A and B Division, and the Top 8 in the C Division, Ladies and Senior Divisions will battle it out to become the Club's Matchplay Champion in their respective divisions.

The draw will be released next week.

Prizegiving will take place directly after the players have completed their games on Sunday so we hope you will pop down to the Club to support your favourite at the 18th hole.

We thought we'd ask Dale to give you some advice on Matchplay Strategy...

## The Club Captain & Head Professional Challenge

Joseph and Francois had their first win last week. They beat Paul Bester and Kevin Naidoo 2 & 1. Well done, guys! Now that the monkey is off your back, who's next in your sights?

Joyful junior golf

Less screen time, more tee time

Golf clinics extract your child from the virtual world and allow them to develop their golf game and friendships while revelling in the joys of golf.

### A recipe for fulfilment

Your child will spend hours outdoors interacting with other children, face-to-face rather than through a screen. Healthy, fun-filled rivalries will develop between friends as your child progresses in the game. They'll also improve their hand-eye coordination and overall well-being. Let your child revel in the joys of junior golf.

# Glued to golf

Peel your child's eyes from the screen and train them on a golf ball instead.

## More control, for less

To attack the pins with your wedges, you need control. Cleveland's RTX ZipCore gives you that control with more grooves, higher MOI and centered CoG. Trade in ANY used wedges when you buy a new RTX ZipCore, and save up to R1,800.

Unlock lower scores

# What level are you approaching from?

*Which is the longest iron that you hit consistently? At which iron does your consistency break down?*

**How bad is the breakdown?**

We'd like you to identify which of the following levels you're in.

You have no confidence you'll actually hit the green with any full iron shot.

*You're comfortable hitting #8 iron through wedges, finding the green more often than not, with a low risk of dropping shots.*

*From #6 iron up, you're able to hit the middle of the green with minimal risk of finding trouble and dropping shots.*

*You're hitting the green with long irons at least half of the time, and with your mid- to short irons you have such good control that you're eliminating any risk.*

## Level up

Better iron play could be your key to unlocking lower scores and a better overall playing experience.
