Let us help you play better golf...

This month we take a look at the benefits of club fitting or custom fitting your golf clubs and the impact this can have on your game.

This week Adam Lowther looks at lie angles and how they affect your shots being missed to the left or right.

Adam Lowther is an Assistant Teaching Professional at Zwartkop.

Parent-child group lessons

This is a great way to learn how to play golf. You get to bond with your child, have fun together and embark on a journey that will provide you with a lifetime of opportunities to make memories together.

Join us from 09h00 to 10h00 on a Saturday. R2500 per quarter per couple (1 adult & 1 child).

Gift of a fitting

The satisfaction of square contact

Being able to consistently square your club at impact is guaranteed to make your playing experience more satisfying. But your clubs could be making it more difficult for you.

So many golfers are playing with shafts that aren't the right length for them and lie angles that make square contact so much more difficult. Issues like these are easy for us to check. And once your clubs fit you, it's easier to play your best golf. That's the gift of a fitting, and it's available to every golfer, regardless of skill and experience level.

What's in the box?

- Squarer contact with the ball
- Straighter, longer tee shots
- More confidence with your mid-long irons
- Ability to attack the flag with your wedges

The perfect gift

When you get fitted, you're getting so much more than a personalised club setup. You're getting the satisfaction of better ball striking and lower scores.

Why not give that gift to a friend or family member.

Gift a fitting

By only milling the parts of the putter head that have an impact on your putting performance, Cleveland have created a high-performing milled putter without the usual high milled price tag. The new Cleveland HB Soft Milled Putter.

How can we help you?

Accomplishment is rewarding

However old or mature we are, anyone who's invested in a smart-watch and app that tracks your movement and fitness, knows what a nice warm feeling it is when you get the digital recognition of achievement.

But that little dopamine kick for the brain is nothing compared to the intense pleasure we experience when we hit a good golf shot. And it doesn't come close to how you feel walking off a green after you've played a hole well. Those are the moments when we know we've risen to, and met, the challenge of golf.

Think about the last time you experienced those feelings. It was great, wasn't it? Of course, they don't last too long! It's a game that certainly likes to keep us humble.

Fun with friends and social connections are a very important reason to play golf. But while you're at it, hitting more good shots along the way makes everything so much better.

What improvement would matter most to you?

What improvement would add the most enjoyment to your golf game?

We've listed six different thoughts of our own, but we'd be interested in you telling us your thoughts.
