From the Course

The course maintenance team verti-drained the greens yesterday and will verti-cut the greens today. They will then overseed them with bent grass seed and then get watering! This process will assist in getting water and nutrients down to the roots and obviously the seed growth will help to rejuvenate the greens.

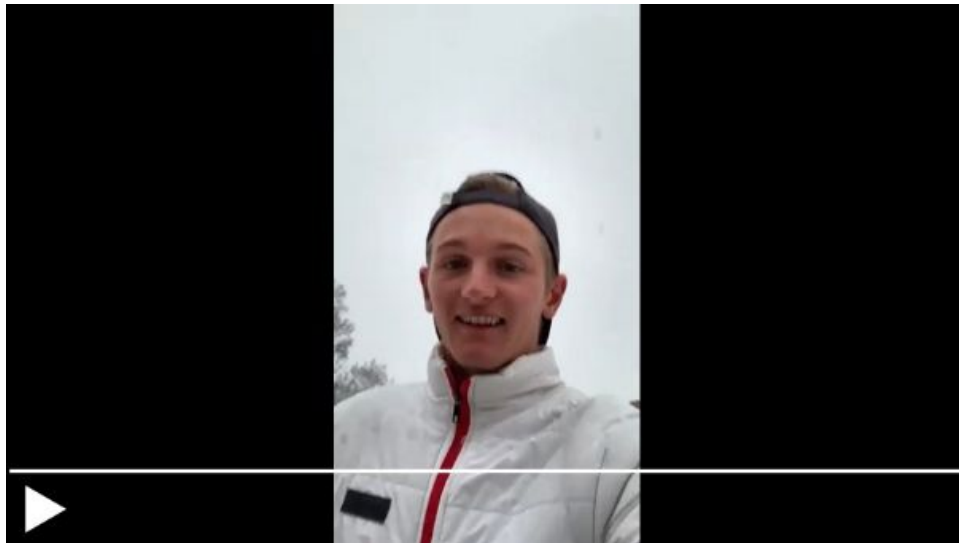

You will be happy to hear that the pump is working, the dam levels are back to normal, and the irrigation system is working!

An update from Marco Anderson

We've given Marco Anderson a few weeks to settle into his new college routine in Kansas. He has been working out in the gym over the weekend instead of playing golf as it has been snowing in Kansas. His last game was on Friday when he played 9-holes and shot 6-under missing a 2 metre putt for a 29.

Check out what happens when you take a South African from Pretoria into the snow in Kansas. Enjoy Marco!
