Par 3 Power Play

## Choose your targets wisely

One of the golden rules of improved par 3 scoring is knowing which flags to attack and which ones are best left alone.

Safety first

*Depending on the club in your hand, your shot shape and the presence of potential trouble, you may be better off aiming away from the flag and for the heart of the green.*

*Playing safer will help you make more stress-free swings AND there's always the possibility of conjuring up a bit of flatstick magic by draining your putt for a bird.*

*We'll help you make better calls on the tee by teaching you to pick smarter target lines.*

## Play smarter, score better

Let's play a few par 3s together and help you improve your scoring with a sensible strategy off the tee.

Over the past few months, Srixon-Cleveland have released new gear that covers everything from putters to irons to drivers to golf balls. Whatever you need to play better golf, we can find a way to help you with Srixon-Cleveland.

Trust your irons

## Know where you're going

Launching your golf ball onto a soaring and accurate trajectory is one of the most satisfying feelings in golf. Most golfers are playing with a lie angle that makes this more difficult than it should be.

[Find your lie angle](#)

1 degree makes up to 10-feet of difference

*When your lie angle is out by just 1 degree, you can stray up to 10 feet wide of your target. That's the difference between a birdie opportunity and a tricky lag putt to get close.*

## Let's make iron play fun

Once we've set your irons up for your physical stature, swing type and playing preferences, your iron play will be more effective and more fun! Let's build your trust in irons.
