From the Club

We are going cashless!

For your safety and ours, not to mention the ease of transacting, we are going cashless.

From the 1st January 2024 we will welcome payments via debit card, credit card, scanning to pay via your phone or banking app or via your Member Spending Account.

We will no longer accept cash at any till points across the whole Club.

We trust you will help us to embrace this change.

We are going cashless!

Please note that from 1st January 2024
Zwartkop Country Club will become a cashless environment.

We will therefore no longer accept cash payments.

We ask for your co-operation during this transformation.

More than a fitting

It's closer to the pin that counts

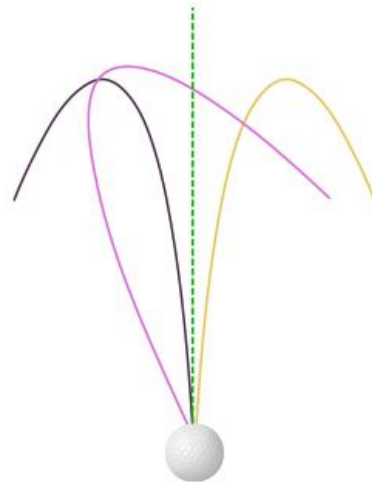

Last week we described how your grip size and your lie angles can impact on your performance. If you missed that, you can [read it now](#).

If we mention a golf shaft, most golfers think we're going to talk about how much distance we can add with the right shaft. We can add distance, but with your irons, we're probably more concerned with accuracy and the angle of descent on your approach shots (to give them stopping power).

If your iron shaft is too flexible, then you're going to have a dispersion pattern that's all over the place.

Every shot is a surprise!

A shaft that is too stiff will almost certainly have you fighting a fade that can become a slice or sometimes a pull. Again, you're not sure whether to aim left or right.

Duca Del Cosma: **Love** at first step

"Also be aware of the impact a shaft length can have on your ability to square the face at impact with the sole parallel to the turf. Accuracy can be significantly reduced by the wrong shaft length. Is it sensible that golfers who have a variation in height of some 10 cm (as small as 15 cm (and even more) should play with the same length shaft."

make it as easy as possible for you to hit better golf shots.

For your golf ball

Fill a stocking

Every great Christmas needs a special gift
(even if you buy it for yourself).

And every great golf ball needs a great playing
partner.

**The beauty of the Srixon ZX Range is that there's a match for the game
you play.**

The ZX7 MKII has minimal offset, narrow sole, short
blade, and thin topline. The best ball strikers in the
club will enjoy these.

The ZX5 MKII offers good ball strikers a little more consistency and a little more length.

Maximised forgiveness in a good-looking iron offering the confidence of a longer blade length and thicker topline in the ZX4 MKII irons.

Can we help?

Finding you the best game for your swing is our job. We fit. We coach. We connect. We care.
