Let us help you play better golf

This week, Duane gives you a great golf tip that is aimed at helping you play better bunker shots. It's unique in that it uses a board to help you get the correct speed and feel hitting out of the sand.

Duane Keun is the Head Teaching Professional at Zwartkop. You can contact him on 078-459-1549.

What's coming up?

The perfect way to start or end your day!

Play 9-holes of golf at Zwartkop - enjoy the early morning smells of cut grass, the call of the birds, and hopefully a few birdies of your own. Golf in winter is great too – a hole or two in, and you are usually in short sleeves!

Call the Golf Shop to book at (012) 654-1144 or book online at www.zwartkopcountryclub.co.za.

Tricky lies

Stuck in the mud?

Muddy lies come with the territory during winter. But your golf experience doesn't have to get stuck because of it. We're here to help you play better golf this winter.

There's a number of simple adjustments we can make to improve your contact on muddy lies and help you to play these shots with confidence.

Saving you money this winter

It's just not that simple

We often read that this time of the year, when the clubs are put away, is the time to get them checked and possibly have “lie angles adjusted to create a better fit”.

Most of you probably know that lie angles have something to do with accuracy as shown above. In reality, there's also a likely loss of contact efficiency, and you have the frustration of a shot that will not only be off target, but also come up short.

So yes, some one can get you on a lie board or even use a launch monitor, but would you adjust your lie angles to fit a poor posture or setup? Wouldn't you first want to make sure you had a good setup and posture, addressing the ball at the correct distance?

However experienced you are, get your posture and setup checked regularly because many swing faults start with poor setup and posture.

The best return on your investment

If there's anything you want to do to prepare for a better golf year, it's to get the fundamentals right BEFORE you start investing in equipment solutions. You can wait until spring and then come through or come along now.
