Who is your pick for the 2024 US OPEN?

Make my pick

The excitement is building as we approach the tee-off of the US Open today, and we can't wait for a great weekend of golf!

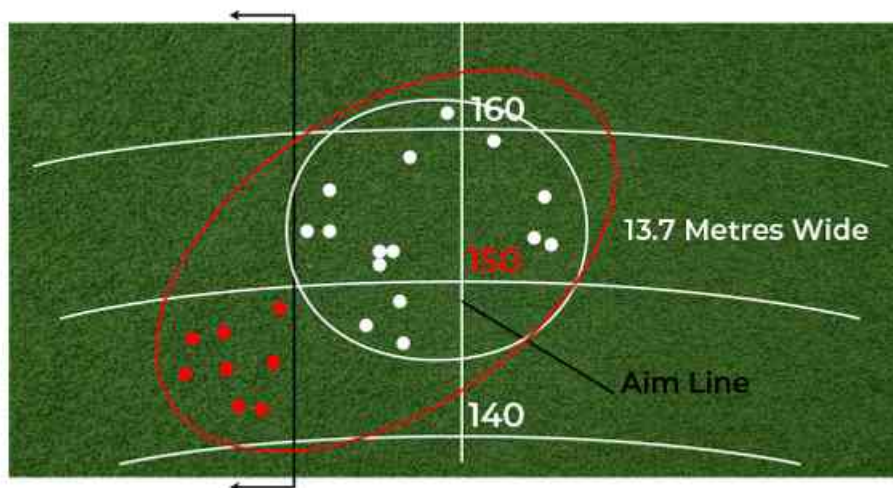

Who's your pick to win the US Open this year? Predict the champion, and if you get it right, you'll be entered into a draw to win two-dozen Srixon Divide Golf Balls.

My pick is...

Saving you money this winter

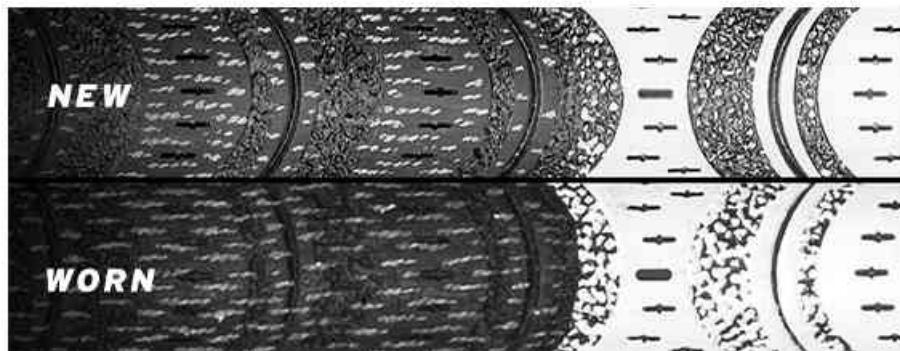

One simple equipment refurb

Last week we recommended you keep your wallet in the pocket and not think about new clubs or adjustments to lie angles, until you'd had a swing check to look at your setup and posture. There is one equipment check you should get done though.

If someone told you that playing with the same clubs with fresh grips (vs grips that had been used for 40 rounds) gave you a 10% improvement on shot dispersion and 3 metres of extra carry distance would that matter to you? How many rounds have you played with your current grips?

There are four simple checks to make of your grips: are they shiny or glossy? Have the cosmetics worn off (as shown below) or is some of the paint fill disappearing? Or have they even reached the stage where they're starting to crumble?

Every golfer, even those who're less experienced, will immediately notice how much better the club feels as you swing it with fresh grips. Much less expensive than buying a new set. A good step towards better ball striking.

| And while we're at it

It will be a good idea BEFORE changing grips to let us do a quick check of that grip size. Even more negative for your shot dispersion is the wrong grip size. Now is a good time to have both of those checks.

Tricky lies

Conquer side slopes

Fairways are full of sloping lies. They're an additional challenge you've got to deal with, and we're going to help you do just that.

Ball below your feet

This one's probably the toughest sloped lie for most golfers. Catching the ball thin is the tendency here.

Ball above your feet

This lie brings the ball closer to you. The loft on the club causes the club face to aim left from these lies so make sure you take your aim carefully, especially with your more lofted clubs.

No more sliding scores

Let's create more scoring chances for you by improving your impact from sloped lies.
