Junior Golf Challenge at Zwartkop

It was fun to host a group of juniors who took on a very different challenge yesterday, playing 9 holes of golf, a putting challenge and 18-holes on Trackman.

Congrats to Divan Englebrecht who won the event on a score of 86 points. He scored 20 points over 9 holes, 23 points in the putting comp and 43 points in the Trackman competition.

In second place was Mikhail Morar on 75 points and in third, Zaakiya Mahomed on 74 points.

Well done to all our participants – we hope to see you again soon – and a big thank you to Sharon Bruyns, Duane Keun, Gareth Willing and Michael Salomon for their efforts in running the event.

Is slow play wearing you down?

Here are 4 remedies for that:

1. Play Ready golf
2. You only have 3 minutes to look for your lost ball
3. Keep up with the group in front of you (not ahead of the group behind you!)
4. AIM Point is banned at Zwartkop.

Play Royal Troon, the home of this year's Open Championship

Lucky for you, you will be able to play it without the wind or the rain that the pros will have to deal with in Scotland. Troon is an iconic links course on the Open Championship rota, and if you know you won't ever get to play it in person, come down and give it a go on the Trackman Range, where you get to play real golf shots.

Check out just a few of Troon's holes here:

Play nine holes at Royal Troon on the TopTrack Range powered by Trackman three times before the Open Championship, and your best score will go into the draw to win.

Great prizes to be won.

Let us help you play better golf

This week, Duane gives you great advice. He discusses the myth of “keeping your head down” during the shot when it should actually be “keeping your spine in posture” – an important distinction.

Duane Keun is the Head Teaching Professional at Zwartkop. You can contact him on 078-459-1549.

What's coming up?

We have tee-off times available all weekend. You can book online at www.zwartkopcountryclub.co.za or call the golf shop on (012) 654-1144.

The Game of Misses

THINK *about* IT

Someone, with an evil smile, said that **“golf is a search for perfection, but a game of misses”**.

The evil smile exists because they know that most of us are too often seduced by that search for perfection, when we should be planning for imperfection.

One number below is more important than any other if you're standing in the fairway planning your approach.

When you've hit a great tee shot, your best on a particular par 4, and you're looking at the second into the green above, what club are you playing, to what area of that green, and what is your 'cover number'? [Learn more.](#)

I think it was Jack Nicklaus who said he could help any amateur save 5 (it might have been 10) shots just by changing their thinking.

How many shots can we save you?

Why not challenge us? Come and book a playing lesson and we'll provide swing advice and technique improvement. But we'll also provide you insights that will reduce your frustrations with the game and allow you to shoot lower scores.

Save me shots

The transfer of power Srixon ZX MkII Drivers

What if you could design a driver head with 'two springs'? One that added over 2kph of ball speed (vs. the previous generation of hyper-fast faces).

That's what you get with the Rebound Frame inside the Srixon ZX MkII Drivers. A 'spring within a spring'.

The result of two flex zones snapping back into shape isn't just faster ball speed. It's also an increase in the size of the area on the face that gives you maximum speed.

Maximum **POWER**

The transfer of power at impact, converting your swing speed to more ball speed, takes you further off the tee. Now add a session where we ensure the launch conditions maximise the distance that extra ball speed gives you, and we could be looking at an extra 15, 20, 25 and more metres.

[Help me maximise my distance](#)
